Letter of Recommendation

To Whom This May Concern,

This letter recommends LTV Project to anyone who is looking for a trusted lighting supplier and service provider. Their commitment to excellence and outstanding performance in various projects for our company has made them an invaluable partner in maintaining our lighting infrastructure.

The recent project of lighting upgrade of one of our production halls and workshop created extensive energy savings and significantly improved the lighting environment in those areas. All products supplied by LTV Project operate without any problems and meet our expectations.

All works are always done professionally, and we can hereby fully recommend LTV Project to any company looking for a reliable and efficient lighting solution partner.

Mo Knott
